

Application summary

Application title

This is the title of your proposed project.

Proposed start date

This date must be at least 8 months after the preliminary deadline.

Name of administering organisation

If your application is successful, this is the organisation that will be responsible for administering the award.

Lead applicant's address at administering organisation

If your application is successful, we will use this address in your award letter.

Career breaks Have you taken any career breaks or periods of part-time work, for example parental, long-term sick leave, carer responsibilities?	
<i>We encourage applications from researchers who have taken career breaks. We want to ensure that any such breaks are taken into account when we consider your track record. State when and for what period you took a break, or were working part-time. We are not asking for the reasons for this break so please do not provide these here, including sharing any sensitive personal health information.</i>	

Provide details

Do you wish to undertake this award part-time? If you wish to undertake this award part-time, either from the start or part way through the grant, your host organisation must employ you on a part-time basis during that time.	
<i>We provide flexible research career opportunities. If you're applying for funding, you can request flexible and part-time working. This could be to help you manage family commitments or if you have individual needs which make undertaking an award full time challenging.</i>	
<i>We always try to accommodate requests, as long as your employing organisation agrees to the working arrangement. Your Grants Adviser will contact you to acknowledge receipt of your application after the scheme application deadline; you should discuss any flexible working plans with them as early as possible. If you have any questions before you apply, please contact our Grants Information Desk.</i>	

Career contributions What are your most important research-related contributions? These may be from any stage of your research career. State what each contribution was, when it came about, why you think it is important and what impact it has had. Examples include publications, patents and impacts on policy. (350 words max.)

Personal statement

Describe how this Fellowship would further your research and career aspirations, and its context in your longer-term vision. How would the Fellowship differ from a more traditional postdoctoral position? How do you propose to take advantage of the opportunities offered by the scheme? (300 words max.)

Research outputs

Use the link 'Add research output' below to add up to 20 of your most significant research outputs; at least five of these must be from the last five years. For 10 of these outputs, provide a statement describing their significance and your contribution (up to 50 words maximum per output).

Research outputs may include (but are not limited to):

- Peer-reviewed publications and preprints
- Datasets, software and research materials
- Inventions, patents and commercial activity

For original research publications, indicate those arising from Wellcome-funded grants in the statement field when you add your research output. You can find more information on this in the guidance to this question.

Include here systematic reviews (e.g. Cochrane Reviews) and meta analyses, but exclude abstracts and literature reviews. We encourage you to include articles published via open research publishing platforms, such as Wellcome Open Research, providing they have passed peer review.

Only include preprints, complete manuscripts that have been submitted to a preprint repository or service (for example, bioRxiv, PeerJ Preprints, arXiv, SocArXiv or PsyArXiv), if they have a permanent identifier such as a DOI or arXiv identifier. Our open access policy requires all original peer-reviewed research papers, supported in whole or in part by our funding, to be made available through PubMed Central (PMC) and Europe PMC as soon as possible and in any event within six months of the journal publisher's official date of final publication.

*The PubMed Central ID (PMCID) is the unique identifier assigned to every full text paper in PubMed Central (PMC) and Europe PMC. **Ensure the PubMed Central ID (PMCID) reference is provided for each output.***

We actively monitor compliance with our open access policy and we ask successful applicants to provide a full list of all their Wellcome-funded research papers, and confirm compliance by providing the PMCID identifier for these, before the award letter can be issued. You can find further guidance in our open access policy statement and authors' information.

How many peer-reviewed publications have you authored/co-authored?
Include systematic reviews and meta analyses but exclude abstracts and literature reviews.

We encourage you to include articles published on open research publishing platforms, such as Wellcome Open Research, providing they have passed peer review.

Current and recent research funding (including Wellcome grants)

List all research funding you have held in the last five years and any key funding before then.

List the most recent first. State the name of the funder, name(s) of grantholder(s), title of the project, total amount awarded (and how much of this you received), your role in the project, and the start and end dates. State the percentage of your time spent on the research; if the grant is active state the number of hours per week that you spend on the research.

Include details of any recurrent or core funding you have held. Explain your role in obtaining the funding. For example, whether you held them in your own right as lead applicant, coapplicant, or as part of a consortium.

We look at your success in getting research funding when we assess your track record. We also want to understand how this proposal is distinct from other funding you hold.

Supporting statement from applicant's current supervisor(s)

Upload a letter of support from your current supervisor(s). This should be a maximum of 500 words. It should show clearly the supervisor's (or head's) name, position and address.

If your current supervisor is also your proposed sponsor, they can write two separate letters or provide all the details in one letter.

Sponsor and research sponsor(s)

Details of sponsor at proposed administering organisation

The sponsor should be a person you are proposing to work with at the administering organisation.

1

Name, including title (e.g. Professor, Dr)

Department

Organisation

Country

Supporting statement from sponsor

Upload a letter of support from your proposed sponsor. As a guideline, this should be a maximum of 500 words.

If your current supervisor is also your proposed sponsor, they can write two separate letters or provide all the details in one letter.

Have you identified research sponsor(s) that you propose to work with?

You should identify a research sponsor at every additional research environment you propose to work in, including if you work in a different research group at the same organisation. You do not have to identify them at this stage.

Name and organisation of research sponsor(s)

Outline of research programme

Outline your proposed research, including key goals. Indicate the reasons for choice of research environment(s).

(700 words maximum)

You may provide your answer to this question in text entry format or as a PDF attachment. If you are uploading your research outline, the uploaded document must be in 11 point Arial font and portrait format.

References are not expected at this stage. If you do include references, they will contribute towards the word limit.

(700 words max.)
